- PostgreSQL
- mySQL
- Oracle

Others:

- Dreamweaver
- Photoshop
- Illustrator
- Flash
- Android

- Arduino
- DSLs

EXPERIENCE

DEVELOPER AT CÓDIGO DEL SUR

Aug 2017 – Present

Full stack developer.

SCHOLARSHIP

Sep 2016 – Jul 2017.

This project was made in the context of a bigger project called "Prototipos evolutivos" (Evolutionary Prototypes), which is part of ICT4V (Information and Communication Technologies for Verticals) and was proposed by De Larrobla & Asociados Ltda (trade name: Bantotal). The goal of this project was to create a language useful to specify business bank processes, focus on those which are batch. With this language it should be possible to specify the logic of calculations (low complexity) that must be done and be able to deduce and specify the way to access the data, with the aim of reduce the time of execution of the process. For example, using parallel computing and caching data.

EDUCATION

IEEM - FOCUSED PROGRAM ON DECISION AND ACTION IN LOCAL BUSINESSES

2019

IEEM - FOCUSED PROGRAM ON SKILLS OF THE FUTURE
